## THE COMPANY

The Construction company, ET.M.ER, was established in 1981 and operates in its current form since 2002. Its main activity includes heavy mechanical engineering projects, such as chemical industries (i.e. refineries), pharmaceutical and food industries, energy-production companies, oil companies, etc.

The presence of ET.M.ER in the mechanical engineering projects field, longstanding and highly respected, has (practically) been recognized by the sector in which ET.M.ER is activated. It is indicative that major companies from Greece and abroad have repeatedly entrusted ET.M.ER with their own major infrastructure projects, such as the establishment of their facilities, as well as their upgrade and maintenance.

ET.M.ER has gain its collaborators and stakeholders esteem due to the responsible studying and executing any project, the compliance with the agreed delivery deadlines, the experience which is a guarantee that ET.M.ER offers superior services. Top priority was, and keeps being, the quality insurance of any construction and the compliance with "Health and Safety" systems, during all the undertaken projects.

ET.M.ER has its registered seat in Athens. Its prefabrication and assembly unit is located in the company's privately owned premises in Aspropyrgos of 12.000 sq.m.

ET.M.ER is managed by its founders, Mr. Konstantinos Stamatopoulos, businessman, and Mr. Efstathios Servos, mechanical engineer. The company is staffed with skilled engineers and scientifically trained personnel with respective specialties.

## COMPANY ACTIVITIES

Our Company is active in projects of heavy industry, foods and pharmaceuticals.

Specifically:

- **HEAVY INDUSTRY**

Individual activities

- ***Turn around projects***

Turn around projects consist of work performed in a span of a few days when manufacturing plants are closed and include all nature of technical works.

- ***Special projects***

Special projects concern projects of particular expertise, capability and technical support.

- ***Mixed projects***

Mixed projects concern either integrated projects (complete building of new factory-plant), or expansion of already existing installations and include all nature of technical works (e.g. construction, engineering, electrical etc).

- ***Refinery projects***

Refinery projects concern all nature of works resulting in petroleum refinery plants or in the operation of the plants or in T/A, and include expansions – modernization of existing plants and construction of new plants.

- ***Manufacturing maintenance projects***

These concern projects performed mainly during the operation of the manufacturing plants so they can safely continue their operation or are performed over a span of few days (T/A).

- ***Fuel installations***

These concern projects at fuel installations and include all nature of works (new installations, expansion – modernization of existing etc).

- ***Ports – Energy projects***

These concern projects related to underwater works such as the replacement of underwater fuel pipelines, repair of shafts supporting marine piers-platforms.

- **FOODS**

The projects at food companies concern the execution of all nature of works (construction of new factories, expansion of existing plants, modernization of the operation of existing facilities, maintenance etc).

- **PHARMACEUTICALS**

The projects at pharmaceutical companies concern the execution of all nature of works with the quality and special specifications required (construction of new factories, expansion of existing plants, modernization of the operation of existing facilities, maintenance etc).

## TABLE OF PROJECTS IN PROGRESS

YEAR	OWNER	AREA	PROJECT TITLE	WORKS DURATION	WORKS CATEGORY	BUDGET (€)
2023	HELLENIC PETROLEUM S.A.	ASPROPYRGOS REFINERY	REPLACEMENT OF A 32" SEAWATER PIPELINE FROM PIER TO UNITS REFINING	6 months	2 – 6 – 7 - 8	614.000,00
2022	MOTOR OIL HELLAS A.E.	CORINTH REFINERY	REPLACEMENT OF THE SOUTH PANEL GRID AT THE PIER A	10 months	2 – 7 - 8	712.610,00

## QUALITY OF WORKS

Our company policy aims primarily to provide the market services of a consistently high quality level. Under this policy recognizes that energy resources are not inexhaustible and therefore must be used responsibly. The contribution to the protection of the environment is not limited in its effort to reduce the environmental impact of its actions but extends to the effort to increase the environmental awareness of its customers, as well as to support actions outside the ET.M.ER SA having to do with the overall protection of the environment for future generations. To meet this objective applies an Environmental Management System.

At the same time our company policy extends to the health and safety of workers but also of all those who visit or live near our facilities or premises which performs its work. To meet this objective, implementing a Health and Safety System.

Basic principle and commitment of ET.M.ER SA and philosophy of each executive are:

- ✓ The maximum satisfaction of customer needs from the first time you come in contact with the ET.M.ER SA and every time, at the lowest possible cost.
- ✓ The company's compliance and monitoring compliance with this objective not only with national and ECC legislation and the audit requirements but also with national and international standards relating to Quality, Environment and Health and Safety.
- ✓ Achieving total annual objectives and measurable quality, environmental and health and safety objectives set by ET.M.ER SA.
- ✓ The continuous improvement in the market position of the company, and all of its results.
- ✓ The ET.M.ER SA aims to save natural resources and prevent pollution by promoting eco-efficient practices in the operation of all its sectors.
- ✓ Uses efficient waste management systems that contribute to save natural resources.
- ✓ Reduces specific energy consumption, water and paper - adopting appropriate practices.
- ✓ Adopt ecological criteria in the procurement of goods and services to the extent practicable.
- ✓ Avoids the use of harmful substances, products and processes where possible.
- ✓ Maintains and cleans the areas using ecological methods and materials.
- ✓ Instruct and sensitize all staff, both in matters of ecological practices and energy saving, as in environmental management and control, during their work. Also the continuous improvement of the conditions relating to the health and safety of workers.
- ✓ To achieve the above, the Management of ET.M.ER SA :

- 
- HEAD OFFICE : 36 OMORFOKLISIAS STR., 142 34 ATHENS – GREECE, TEL.: +30 210 27 19 941-2, FAX.: +30 210 27 19 056
  - WORK SHOP : AGHIAS SOFIAS & NOE STR., 193 00 ASPROPYRGOS, GREECE, TEL. +30 210 55 95 562
  - [www.etmer.gr](http://www.etmer.gr) e-mail : [etmer@etmer.gr](mailto:etmer@etmer.gr)
- 

- ✓ Has adopted a Quality Management System, Environmental Management and Health & Safety in accordance with International Standards ISO 9001: 2015 ISO 14001: 2015 and OHSAS 18001: 2007, which is applied throughout the company and in all activities that affect the quality of services and customer satisfaction.
- ✓ Continuously it reviews and improves the characteristics of the services, where possible, the effectiveness of its processes and the entire Quality System Environmental Management and Health and Safety.
- ✓ Sets measurable objectives for quality, environment and Health & Safety at the corporate level, at the functional level segments and / or processes and in the implementation of projects. These objectives are established and evaluated as to the degree of their achievement in the context of the Review of the Quality System, Environmental Management and Health and Safety of the management of the company.
- ✓ Provide the necessary resources for unhindered, efficient and effective operation of each division of the company.
- ✓ Invests in continuous training, information and education of its staff in order to promote quality, environmental protection and health and safety in every activity.
- ✓ Monitors, measures and evaluates the critical parameters and processes to ensure the quality, environmental protection and Health and Safety.
- ✓ Recognizes the health and safety of staff as a prerequisite for the empowerment of people and their effectiveness.

Adopting the principle of continuous improvement the ET.M.ER. SA recognizes and rewards teamwork, individual effort, invests in people and respects the customer and the environment.

All the above guarantee the compliance of the Management and Staff of ET.M.ER. SA with the requirements for Quality, Environment and Health and Safety, according to ISO 9001: 2015, ISO 14001: 2015 and ISO 45001: 2018.
